

# **Dr. Taki J. Anagnostou**

## **Annual Scholarship**

### **2007**

Dr. Taki J. Anagnostou Scholarship will be awarded annually in the amount of **\$1000** to a student pursuing a degree in science or engineering, especially coatings or chemistry at freshman or sophomore class level. Preference will be given to children of Detroit Society for Coatings Technology members

Established in 1997, the scholarship honors **Dr. Taki J. Anagnostou** in recognition of his many contributions to the coatings community. Dr. Anagnostou taught many hundreds of students in his courses in Polymer & Coatings Technology at Eastern Michigan University, as well as in his Coatings Engineering courses at The University of Detroit. Anagnostou served as Program Coordinator of the Polymer & Coatings Technology at EMU from 1986-96. He also founded the EMU Emission Center in 1991, serving as its director until his retirement.

Dr. Taki J. Anagnostou earned his Ph.D. at North Dakota State University. In the ensuing 42 year career, he held various development chemist and management positions at Guardsman, Chrysler Corp., Mortell, Wyandotte Paint Products and Akzo Coatings Inc. While in industry, Anagnostou also taught Coatings Engineering to many members of the Detroit coatings community from 1969-85 as an adjunct professor at the University of Detroit.

In 1986 he was appointed Professor and Program Coordinator of the Polymer & Coatings Technology at Eastern Michigan University. In 1991 Professor Anagnostou established the Emission Center at EMU, serving as the Center Project Director until his retirement.

More than 200 have since graduated from the EMU Coatings program. Additional hundreds of students attended his interdisciplinary courses and programs at EMU for technical enrichment. Anagnostou was honored with the State of Michigan Teaching Excellence in 1991 and in 1995 with the EMU Alumni Association Teacher of Excellence Award.

Anagnostou has chaired seminars on Coatings Additives, moderated the DSCT's annual *FOCUS* Conference, and served on the Editorial Board of Review for the Journal of Coatings Technology. His technical presentation at the 1980 Federation of Coatings Societies annual meeting won one of the Roon Awards. His many presentations at the monthly meeting of the Detroit Society have been well received and well attended. He holds five patents and is author of seven publications. On retiring from EMU at the end of 1996, Anagnostou embarked on yet another career as a coatings industry consultant.
